Toufic Al Akl | Portfolio

CAREER OBJECTIVE

Computer Engineering student seeking an entry-level role in technology consulting, artificial intelligence, automation or machine learning to drive impact in a professional, technology-driven environment.
Personal Portfolio: **Toufic Al Akl | Portfolio**

EDUCATION

Bachelor of Science in Computer Engineering — **September 2022- June 2026**
American University in Dubai, UAE
CGPA: 3.51 | Full AUD Scholarship | Dean's Honor List
Date of Graduation: June 2026

Masters in Business Administration – Management — **August 2026 - Present**
American University in Dubai, UAE

PROJECTS

NeuroAssist: ML-Driven MRI Brain Tumor Detection — **April 2026**
- Built an end-to-end MRI image classification pipeline including data preprocessing, model training, and evaluation.
- Experimenting with CNN architectures and performance metrics for multi-class tumor classification.

CardioAI: Heart Disease Prediction Using ML — **December 2025**
- Developed supervised ML models to predict heart disease using clinical datasets.
- Performed data cleaning, feature selection, model training, and performance evaluation.

WORK EXPERIENCE

Technology Consulting Intern - RCI, Lebanon — **May 2025 – September 2025**
- Collaborated on digital solutions for business units, supporting requirements gathering and solution design.
- Contributed to the development and delivery of client-facing web platforms across multiple stakeholders.

Operations Assistant at the PBI Academy, United Arab Emirates — **September 2023 - Present**
- Manage scheduling and coordination of players and coaches.
- Organize match plays and tournaments associated with PBI, and oversee inventory management.

Math Tutoring Center – AUD, United Arab Emirates — **January 2023 – May 2025**
- Provided one-on-one and tutoring center support for mathematics and engineering courses.
- Developed targeted exercises to strengthen conceptual understanding and problem-solving skills.

Peer Tutor – AUD, United Arab Emirates — **January 2023 - Present**
- Explained complex engineering and mathematical concepts in a clear, structured, and student-focused manner.
- Fostered critical thinking and analytical skills by breaking down complex problems into manageable steps.

PROFESSIONAL DEVELOPMENT AND TRAINING COURSES

- AI Infrastructure and Operations Fundamentals, Led by NVIDIA — **February 2026**
- Generative AI: Prompt Engineering Basics, Led by IBM — **February 2026**
- Machine Learning With Python, Led by IBM — **November 2025**
- Certificate in Artificial Intelligence Fundamentals, Led by IBM — **May 2025**
- Certificate in Introduction to Data Science, Led by Cisco — **February 2025**
- Certificate in Ultimate Microsoft Office; Excel, Word, PowerPoint, and Access — **July 2024**

SKILLS

- **Programming and Data:** Python, C++, MATLAB
- **Web and Databases:** HTML, CSS, MySQL
- **Data & BI:** Excel, Power BI, PowerPoint, Word
- **AI Tools:** ChatGPT, Claude, DeepSeek, n8n (workflow automation)
- **Languages**: English (Fluent), Arabic (Native), French (Fluent)
- **Personal Skills**: Strong communication, problem-solving, teamwork, leadership, time management, adaptability.
- **Sports**: Tennis, Padel, Football, Table Tennis.

SUMMARY OF ACHIEVEMENTS

- Fourth in the Mathematics Mangahigh Competition, Middle East — **March 2020**
- Dean's Honor List — **May 2023 & May 2026**
- Top 10 in PlanetX Competition in Dubai Airshow, United Arab Emirates — **November 2025**
- Athlete of the Year Award, American University in Dubai — **June 2026**
